Ford Galaxie New York Yellow Cab (1967)

Yellow with period correct decals and working roof lights

During the late 1960's the Ford Galaxie 500 played a significant role as one of the iconic yellow cabs on the streets of New York City. These sturdy vehicles, adorned in a vibrant yellow livery, ferried passengers across the city for many years.

The Galaxie 500, part of Ford's full-size lineup, was a reliable workhorse. Its well designed and sturdy construction combined with a spacious interior made it ideal for taxi duty. Equipped with a 289cu/in 5.2 V8 engine, it was ideal for a time where petrol prices were not an issue.

This Yellow Cab was imported by Lucas Films & Disney for use in the filming of the movie Indiana Jones and The Dial of Destiny, partly filmed in July 2021 on the streets of Glasgow city centre. We purchased this vehicle when filming finished in the early part of 2022. Since then it has been mainly used for catalogue photo shoots and corporate functions.

This car is perfect for TV and Movie Production, Weddings, Party's, Retirements, Corporate Events, Catalogue or Advert Photo-shoots.

Available for:

TV & Movie Production

Corporate Events

Promotional Events

Photoshoots
